

A large, dark blue, stylized number '4' serves as the background for the entire page. It has a thick, slightly irregular texture, suggesting it might be a printed or hand-drawn element. The number is positioned such that its top loop is in the upper right, its vertical stem runs down the right side, and its bottom loop is at the bottom right. The left side of the image is mostly white, with a diagonal line separating it from the blue background.

TECH.**

ESSEX AGRICULTURAL AND  
TECHNICAL INSTITUTE LIBRARY  
HATHORNE, MA 01937

God has given me this day to do as I will.  
I can waste it or use it for good.  
What I do today is very important  
Because I am trading a day in my life for it.  
When tomorrow comes, this day will be gone forever  
Leaving behind something I've traded for it.  
I want it to be gain, not loss . . .  
Good, not evil . . .  
Success, not failure . . .  
In order that I should never forget  
The price I paid for it.

O the snow, the beautiful snow,  
Filling the sky and the earth below.  
Over the house-tops, over the street,  
Over the heads of the people you meet,  
Dancing,  
Flirting,  
Skimming along,  
Beautiful snow, it can do nothing  
wrong.

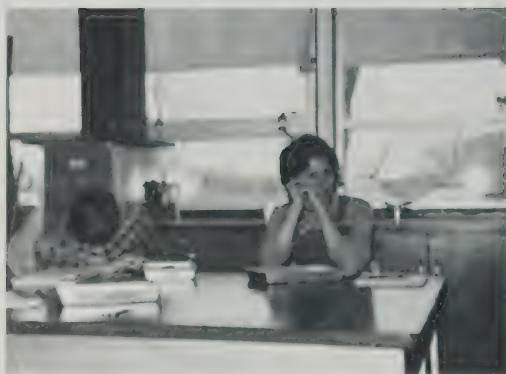

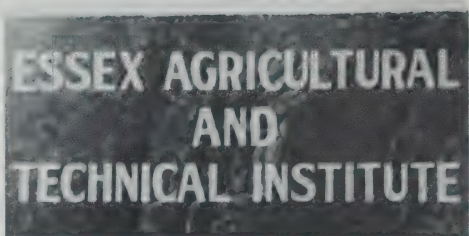

There's a long, long trail a-winding  
    Into the land of my dreams,  
Where the nightingales are singing  
    And a white moon beams.  
There's a long, long night of waiting  
    Until my dreams all come true,  
Till the day when I'll be going down  
    That long, long trail with you.

To see a world in a grain of sand  
And a heaven in a wild flower,  
Hold infinity in the palm of your hand,  
And eternity in an hour.

Life is but a spray of mist,  
It travels through the tightest fist.  
From that spray of mist shall grow,  
New life which all will come to know.

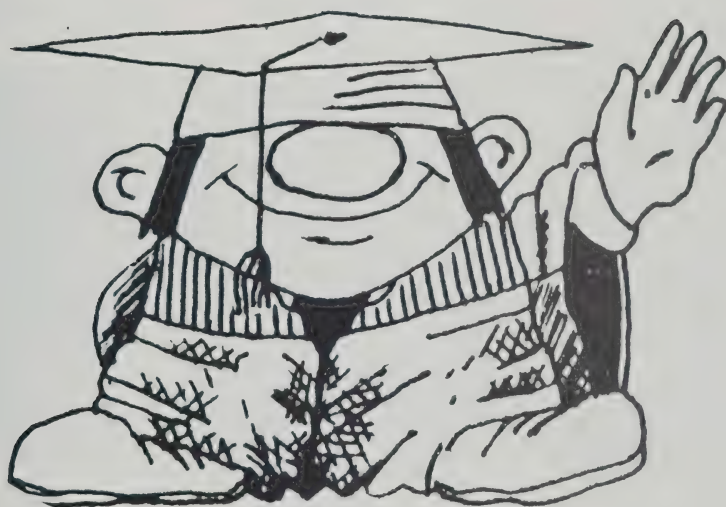

so, so you think you can tell  
heaven from hell  
blue skies from pain  
can you tell a green field  
from a cold steel rail  
a smile from a veil  
do you think you can tell  
did they get you to trade  
your heroes for ghosts  
hot ashes for trees  
hot after a cool breeze  
cold covered with chains  
did you exchange  
your walk on part in the war  
for a lead role in a cage  
do you think you can tell  
we're just two lost souls  
swimmin in a fish bowl  
year after year  
how I wish you were here

# Class Prophecy

## ARIES

*March 21 – April 20*

Aries will experience a slow but steady climb to success. Those born under this sign tend to be independent but they do exhibit a strong sense of loyalty to their work. Aries are organizers and executives; they are responsible individuals. Those who are influenced by this sign tend to be adventurous. They have the courage and the initiative that is needed in occupations such as medicine, law, accounting, aviation, mechanics, merchandising, construction, acting, teaching, and engineering.

## TAURUS

*April 21 – May 20*

Those born under this sign display artistic as well as practical and materialistic characteristics. Taureans are very persistent or firm and in some incidences they become quite stubborn and obstinate. They are dominated by the sign of finance which often influences their choice of careers. Taureans usually become bankers, interior designers, merchants, farmers, lawyers, salesmen, teachers, doctors, commercial artists, and brokers.

## GEMINI

*May 21 – June 21*

Those born under this sign possess an active and an acute mind and often are disturbed when progress is too slow. Geminians are inclined to choose careers that require an intellectual and venturesome person. Their energetic characteristic often leads them to follow several lines of work at the same time. Most Geminians have artistic talents that may develop late in life. Their qualities make them best suited for vocations in music, art, writing, merchandising, dancing, law, medicine, travel, and painting.

## CANCER

*June 22 – July 22*

Although they may travel during the early part of their lives, Cancerians have a strong sense of home life. Though their analytical nature makes them best suited for professional careers, Cancerians also have artistic abilities. Two general characteristics which they display are a dedication to and an acceptance of work. Cancerians are individuals and find best expression in law, medicine, music, painting, surgery, navigation, acting, clothes designing, dentistry, engineering, salesmanship, teaching, and mechanics.

## LEO

*July 23 – August 22*

Those born under this sign are endowed with a strong awareness of self, aspiration, enthusiasm, boldness, and pride. Leonians are very concerned about the image so that once they attain success, they maintain it throughout their lives. They prefer intellectual work over physical labor. Leonians are best qualified for careers as lawyers, authors, doctors, bankers, musicians, actors, real estate operators, merchants, brokers, artists, and salesmen.

## VIRGO

*August 23 – September 22*

Virgos are characteristically industrious, conscientious, and perceptive. Like Leonians, they also prefer mental over physical work. Virgos are practical and scientifically-minded individuals who display a good sense of judgment. They often choose professional careers in law, medicine, business, transportation, and hotel management. Virgos should be sure to select an occupation which will allow their abilities the greatest expression.

### LIBRA

*September 23 – October 22*

Libras are extremely talented and often experience great difficulty in determining what career they are best suited for. They will often try a wide variety of work before they are completely satisfied. In general, they are ambitious, intellectual, artistic, and successful. Libras especially enjoy vocations that bring them before the public; they become good lawyers, judges, teachers, writers, architects, doctors, aviators, and entertainers.

### SCORPIO

*October 23 – November 21*

Scorpions are suited for nearly all types of work. They have the persistence needed to stay with a job until it is successful. They are intellectual, loyal, and dependable. Because they are so trustworthy, they may end up carrying more than their share of responsibilities. Scorpions do well in financial affairs and many have a speculative streak. They often enjoy success in investments, real estate, and mining ventures.

### SAGITTARIUS

*November 22 – December 21*

Sagittarians are extremely industrious and often work in more than one area at a given time. They are intellectual and determined individuals. The careers they choose should be ones that bring them in contact with the public. Their vocations should make use of their mental and physical abilities. Sagittarians are especially suited for careers in law, teaching, medicine, business, science, aviation, research, writing and transportation.

### CAPRICORN

*December 22 – January 19*

Capricorns are very determined and patient individuals but once they become discouraged, they may remain shiftless. It may take quite some time before they become successful; but once success comes, it comes quickly. Most Capricorns find that marriage develops their expressive nature since it provides a form of inspiration. In their work, Capricorns are capable and trustworthy. They prefer careers in financial, business, or professional areas.

### AQUARIUS

*January 20 – February 18*

In the early part of their lives, Aquarians usually experience great difficulty in choosing a vocation, but they have the determination and the resolution that is needed for success in a wide variety of occupations. Those born under this sign have great minds and are natural thinkers. Because they tend to be independent and take an interest in the unusual, Aquarians often become salesmen, inventors, researchers, aviators, electricians, organizers, and explorers.

### PISCES

*February 19 – March 20*

Pisces are often found in careers that require originality and precision. They are extremely attentive to details and their work reflects strong dedication. Because Pisces are industrious and conscientious, they are often trusted with responsibilities. Those born under this sign are best suited for careers in medicine, teaching, mechanics, designing, floriculture, drama, agriculture, religion, and drafting.
